

Supplementary Tools

Z-4151

Specifically required where no TDC marks are shown

Component Codes

Code	OEM Ref	Description
C226	1 895 443 000	TDC Indicator

Designed to be used with our 2584 DTi gauge this essential piece of equipment makes finding TDC on Alfa engines easy.

Z-2584**Dial Test Indicator**

Mounts directly on to the 4151 TDC indicator to give an accurate reading for the position of TDC.

Specifically required where no TDC marks are shown

Component Codes

Code	OEM Ref	Description
C127	1 825 013 000	Dial Test Indicator

**Z-3548****Tensioner Tool**

Component Codes

Code	OEM Ref	Description
C236	1 822 154 000	Balancer Shaft Belt Tensioner Tool

A tensioning wrench designed to allow the correct tensioning of the balance shaft belt fitted to 2.0 twin cam Alfa Romeo engines

Applications

145 | 146 | 147 | 155 | 156 | 166 | GT
GTV 4 cylinder 2.0L 16 valve engines (1996 - 2010)

Z-2869**Camshaft Holding Tool**

Also used on:
Universal

Generic design.

Component Codes

Code	OEM Ref	Description
C225	1 822 155 000	Camshaft Holding Tool

Camshaft Holding Tool, designed to hold the Camshaft pulley for loosening and tightening the pulley fixings without damaging the camshaft camshaft belt | crankshaft setting tools.
